

# Blue Bronna Wilderness Camp

## To Bring List

The following is a list of clothing and equipment which will make your stay at camp more comfortable. Experienced campers know that there are many things that they will not need, so they wisely leave them at home. Since space is limited, please plan your luggage to include only a sleeping bag or bedroll and a small suitcase/duffle bag. Please avoid new items of clothing as these are usually uncomfortable and may get dirty and stained in the outdoors.

It is good to plan for layers of clothes that can be added or taken off as the temperature changes.
